ROHS & WEEE Directives in Electronics Industry

Scope:
Products shipped to the EU after July 2006 must comply with the RoHS Directive. Similar requirements will also appear in China, Taiwan, Japan, several US states, and around the world. Non-compliance with the directives can result in either penalties, product sales disruptions, or the removal of manufacturers' products from the marketplace. Although some companies may be exempt from some provisions of these directives, the turmoil in the supply chain is expected to affect all hardware manufacturers.

Objectives:
The objective of this training is to provide industry with targeted, timely and valuable training on where they are in the RoHS/WEEE transition process.

Duration: 1 day

Course Contents:
- Need for RoHS and WEEE Directives – Background
- Features of RoHS directives
- Products covered under RoHS
- Important exemptions
- Lead free applications
- Features of WEEE directives

Methodology
