SAFETY TESTING OF ELECTRICAL / ELECTRONIC /ELECTROMECHANICAL PROCUCTS

Objective:
This training course is designed for those who are working in Electronics, Computers, Computer Peripherals & Telecommunication industry. The course imparts knowledge to make our Electrical, Electronic & Electromachanical Appliances safe as per various National and International Standards by State-of-art Safety Lab.
Skill development is achieved through several practicals during the course.

Duration & Timings 1 day,

Who Should Attend The Course will benefit :

- Professionals / Engineers involved in Production, R&D and Quality Assurance from Consumer Electronics, Telecom Industry & Telecom Service Providers, Computers & Peripherals, Medical Industry, Power Electronics, Automobile Industry, Space Industry, Defence, Scientific Laboratories, Machinery & Luminaries etc.
- Faculty of Engineering Colleges.
- Export Oriented Units & Organisations using "CE" Marking.

Course Material The delegates will receive whites of projection & stationery.
Assessment The training course has built in continuous assessment. Participants are awarded a Certificate.

Participants & Nominations
Each course will have maximum of 20 participants. The nominations are accepted on 'first come-first serve' basis.
