Welcome to **STQC CERTIFICATION SERVICES**

STQC CERTIFICATION SERVICES

Standardization play a vital role in meeting the challenges of international competitiveness in information and communications technologies and other fields related to electro-technical areas. Absence of these could lead to the rejection of the goods traded, much more so in a highly competitive world where other parties are able to comply with these. In the context of international competitiveness, the emphasis is not only on conformity of the product to the requirements of a standard but also on the demonstrability of its quality. The international market forces in recent times have shown a trend towards the demonstrability of quality systems, which should be guaranteed by a third party, so that the products of one nation cross the national boundaries of another.

With this objective, STQC Certification Services took the lead and became the first third party certification agency in India. It was established in 1991 with RvA Netherlands collaboration. Since then STQC Certification Services has broaden its scope of certification and is now providing Certification Service in QMS/EMS along with a host of other schemes for the benefit of the industry. It caters to the need of third party certification for the products in line with National and International schemes.

STQC Certification Services is presently offering certification services in the following areas. For more details click on the scheme:

- ISO 9001:2000 Quality Management System (QMS) Certification
- ISO 14001:2004 Environment Management System (EMS) Certification
- ISO 27001 Information Security Management System (ISMS) Certification
- Safety Certification based on IEC Standards
- EMC Compliance Certification
- Conformity/Performance Assessment Certification for IEC Standards
- IECQ Certification scheme for electronic components
- IECEE CB Certification
- Agency Inspection Services for BSI (UK), VDE (GERMANY), NSAI (IRELAND), UL (USA), BIS (INDIA)

STQC Certification Services is accredited by the internationally recognised "Dutch Council for Accreditation (RvA)", Netherlands for its ISO 9001 (QMS) / ISO 14001 (EMS) and Product certification schemes. In addition, ISO 9001 (QMS) certification is also accredited by NABCB, India. Both Raad vor Accreditate (RvA), Netherlands and NABCB, India are signatory of Multilateral Recognition Arrangement (MLA) of International Accreditation Forum (IAF) Inc., the RvA/NABCB accredited certificates issued by STQC Certification Services are valid all across the world.

STQC's international recognition has also been enhanced by virtue of its mutual recognition agreements with leading certification agencies across the world such as BSI, UK; TUV, Germany; JQA, Japan; Kaitech, S.Korea; CEPREL, China; KEMA, Netherlands etc. Organisations can also obtain EQNET certificate acceptable in all over the European Union.

We deliver outstanding certification services to enable you improve your management systems and business.
